

CHARISSA S. L. CHEAH, Ph.D. is a Professor in the Department of Psychology (Applied Developmental Program) at the University of Maryland, Baltimore County. As a cultural developmental scientist, she utilizes mixed-method approaches to understand how individual characteristics, relationships, socialization agents, and contexts interact to influence child and adolescent social-emotional development and physical health, particularly among families from ethnic/racial/religious minority, immigrant, and marginalized groups.

Dr. Cheah is a fellow of the Association for Psychological Science, and a recipient of a Fulbright Research Fellowship to Italy. She also received a Young Scholar Award from the Foundation for Child Development's Changing Faces of America's Children program, and a Visiting Scientist Fellowship from the Scientific and Technological Research Council of Turkey. Dr. Cheah is the past-Chair of the Society for Research in Child Development (SRCD) Asian Caucus and serves on the International Affairs Committee and Rapid Assessment and Response Strategy Team of the SRCD. She was also an elected member of the Executive Committee of the International Society for the Study of Behavioral Development (ISSBD). Dr. Cheah is an associate editor for the journal *Child Development* and consulting editor for the journal *Cultural Diversity and Ethnic Minority Psychology*. She also sits on the editorial boards of *Parenting: Science and Practice* and *The International Journal of Behavioral Development*.

Her research has been funded by the National Institutes of Health, the National Science Foundation, Social Sciences and Humanities Research Council of Canada, and other private foundations. Most recently, Dr. Cheah received an NSF RAPID (Rapid Response Research) award to examine racial discrimination, identity development, and adjustment among Chinese American families during COVID-19.
