

Specialty in Human Services Psychology Requirements Checklist

Students majoring in Psychology (either B.A. or B.S. degree) may choose to complete a Specialty in Human Services Psychology. Specialty coursework can be used to fulfill major requirements (e.g. Domain and Elective requirements). Completion of a Specialty is recognized with a certificate from the Department, but does not show on a student's transcript. **In exceptional circumstances, some flexibility in fulfilling requirements for the Specialty may be possible, with advisor approval and undergraduate program director permission. To begin the process, students should contact their assigned advisor.**

Students who complete the Specialty in Human Services Psychology are presented with a certificate recognizing their achievement. To obtain this certificate (which will be mailed), submit this completed form to the Advising Coordinator, Room 312B Math-Psychology prior to the end of the semester in which you plan to graduate.
